In linkedin.com/in/saharia-hassan-safin
Git github.com/Safin313-stack

Results-driven Computer Science & Engineering student and full-stack developer with a proven record of shipping production-grade MERN applications, engineering custom embedded IoT systems, and co-authoring peer-reviewed academic research (iCONEECT 2026). Currently working as a frontend developer at Projectile Electronic, where I also build robotics projects and take on leadership and shop-management responsibilities. Strong competitive-programming foundation backed by real software delivery — cloud deployment, secure authentication, and hardware/firmware architecture. Actively expanding into cybersecurity and ethical hacking, with hands-on practice in network analysis, penetration testing fundamentals, and CTF challenges. Freelances independently on Fiverr, and has been formally recognized for institutional leadership through volunteer service in a corporate strategic training program.

EDUCATION

Daffodil International University (DIU), Dhaka, Bangladesh — B.Sc. in Computer Science & Engineering

Barishal Govt. College — Higher Secondary Certificate (HSC), 2023–2024

Barishal Zilla School — Secondary School Certificate (SSC), 2021–2022

EXPERIENCE

Frontend Developer & Employee

June 2026 – Present

Projectile Electronic

- Work as a frontend developer and full-time team member, building and maintaining the company's user-facing web work.
- Designed and built a number of robotics projects, combining hardware and software.
- Handle day-to-day leadership and shop management, coordinating work and keeping operations running smoothly.

PUBLICATIONS

An IoT-Compatible Machine Learning Framework for Sleep Apnea Risk Prediction Using SpO_2 and Heart Rate (SleepGuard)

Md Muhasin Ali, Md Sadin Foraji, Md. Rakibul Islam, **Saharia Hassan Safin**, Abdullah Al Masud, Israt Jahan Mojumdar

Proposed SleepGuard, a lightweight ML screening framework that classifies sleep apnea risk (Normal / Warning / Critical) from four easily measured inputs — age, gender, heart rate (BPM), and SpO_2. Compared Logistic Regression, SVM, Random Forest, and a soft-voting hybrid ensemble on 471 locally collected records, using SMOTE on training data only; the hybrid model reached 98.95% test accuracy.

2026 1st International Conference on Next-Generation Electrical & Electronics, Computer Systems, and Technologies (iCONEECT) · 25–26 Sept 2026 · Premier University, Chittagong, Bangladesh

FLAGSHIP PROJECTS

PawsHome — Full-Stack MERN Pet Adoption Platform

LIVE PRODUCT

Architected and shipped a production full-stack pet adoption platform end-to-end (client + server repos). Implemented secure JWT HTTPOnly-cookie authentication, Firebase Auth, MongoDB Atlas, CORS-secured REST API, and Framer Motion animation. Independently deployed backend to Render and frontend to Vercel.

Crowdfunding Platform — Full-Stack MERN Application

CLIENT + SERVER

Built a complete crowdfunding web application with separate client and server codebases, covering campaign creation, browsing, and contribution flows on a React frontend backed by a Node.js/Express/MongoDB API.

SkillSwap — Full-Stack Skill-Exchange Platform

CLIENT + SERVER

Designed and developed a peer-to-peer skill-exchange platform end-to-end, pairing a React/Vite frontend with a dedicated Node.js/Express backend for listing, matching, and managing skill-swap requests.

Apple — Tile Gallery Web App

NEXT.JS · TYPESCRIPT

Built a tile gallery website using Next.js and TypeScript, with BetterAuth authentication, MongoDB storage, DaisyUI components, and Swiper for interactive media browsing.

Keen Keeper — Friendship Tracking App

REACT · RECHARTS

Developed a relationship-tracking application in React with Vite and Tailwind CSS, using Recharts to visualize connection frequency and help users nurture the relationships that matter most.

DigiTools Platform — Digital Marketplace

REACT · CART SYSTEM

Built a modern digital-tools marketplace in React with Vite, Tailwind CSS, and DaisyUI, featuring a smart shopping cart system and toast notifications via React-Toastify.

Windows Commands Cheatsheet

CYBERSECURITY · MIT LICENSED

Authored and published a complete Windows CMD & PowerShell reference for cybersecurity learners and sysadmins, released under an MIT license and starred by the community.

Beecrowd Problem Solving Archive

PINNED · C

Curated, actively maintained repository of solved Beecrowd/online-judge problems in C, reflecting continuous algorithmic and competitive-programming practice.

C Console Application Suite

SYSTEMS PROGRAMMING

Built a series of terminal-based C applications with file persistence and struct-driven data modeling — including a Student Record System, an E-Commerce Order Management System, a Student Marks Management System, and a Real-Time Digital Clock — demonstrating strong systems-level programming fundamentals.

Open-Source Developer Portfolio

32 REPOS

Maintains an actively developed GitHub presence with a consistently branded animated README format across web projects, C console applications, and games — including a dedicated security-focused developer profile with live stats and contribution dashboards.

LEADERSHIP, CLUBS & VOLUNTEERING

Executive Member — Computer Programming Club (CPC)

Daffodil International University

Serves on the executive panel, supporting club activities, programming events, and the student programming community.

Active Member — Cybersecurity Club

Daffodil International University

Active in club sessions, workshops, and hands-on learning in ethical hacking and security fundamentals.

Active Member — Skill Up Club

Daffodil International University

Takes part in skill-development programs, workshops, and peer-learning activities.

Lance Corporal (LCPL) — Bangladesh National Cadet Corps (BNCC)

Bangladesh National Cadet Corps

Holds the rank of Lance Corporal in BNCC, reflecting demonstrated discipline, leadership training, and commitment to organized national youth service.

Volunteer — DIU Take Off

Daffodil International University

Served as an active volunteer for DIU Take Off, contributing to event organization and execution; recognized as a Finalist for outstanding participation.

Volunteer — Unlock The Algorithm (UTA)

Unlock The Algorithm (UTA)

Contributed as a volunteer with Unlock The Algorithm (UTA), supporting program logistics and execution; recognized as a Finalist for outstanding contribution.

Volunteer — "AI-Powered Productivity Transformation & Strategic Leadership Training"

Titas Gas Transmission & Distribution PLC × DIU Dept. of CSE × DIU Human Resource Development Institute (HRDI) — July 16–18, 2026

Formally recognized with a Certificate of Appreciation for valuable contribution, dedication, and enthusiastic support in the successful execution of this three-day corporate leadership training program — awarded by Professor Dr. Sheak Rashed Haider Noori (Head, Dept. of CSE) and Tahsina Yasmin (Director in-charge, HRDI).

Additionally volunteered across a range of other campus and community organizations and events, contributing consistently to youth leadership, outreach, and organizational initiatives.

TECHNICAL SKILLS

LANGUAGES

C, C++, Python, Java, PHP, JavaScript (ES6+)

BACKEND & DATA

Node.js, Express.js, REST APIs, MongoDB, MySQL, Firebase, JWT Auth

EMBEDDED & IOT

ESP32, Arduino, OLED Programming, Sensor Integration, Real-Time Firmware Architecture, API/AI Integration, Robotics

TOOLS & PLATFORMS

Git, GitHub, VS Code, Linux (Zorin OS/Ubuntu, Kali), Render, Vercel, Microsoft Excel

LEADERSHIP & OPERATIONS

Team Leadership, Shop Management, Event Organization

FRONTEND

React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Vite, Framer Motion, Responsive Design

CYBERSECURITY

Kali Linux, Wireshark, Metasploit, OWASP Fundamentals, Vulnerability Scanning, Penetration Testing Basics, CTF Practice, OSINT, Google Dorking, Digital Forensics, Cyber Hygiene

COMPETITIVE PROGRAMMING

Data Structures & Algorithms, Beecrowd/Online Judge, Logic Building, Analytical Thinking

ACADEMIC & TECHNICAL WRITING

Research Authorship, Machine Learning for Health Screening, PRISMA Systematic Review, STROBE Methodology, Automated Document Pipelines

CERTIFICATIONS & TRAINING

INSTITUTIONAL RECOGNITION

- Certificate of Appreciation — "AI-Powered Productivity Transformation & Strategic Leadership Training" (Titas Gas Transmission & Distribution PLC × DIU CSE × HRDI, July 2026)
- Finalist Certificate — DIU Take Off
- Finalist Certificate — Unlock The Algorithm (UTA)

PROGRAMMING & WEB DEVELOPMENT

- freeCodeCamp — Responsive Web Design Certification
- freeCodeCamp — JavaScript Algorithms & Data Structures Certification
- Python Programming Certificate (with academic transcript)

CYBERSECURITY TRAINING

- Cisco Networking Academy — Introduction to Cybersecurity Certificate
- Cyber Hygiene Certificate
- OSINT Bootcamp
- Digital Forensics Workshop
- Google Dorking Workshop
- Cybersecurity for Humanitarian Awareness Workshop (2026)

PRODUCTIVITY, OFFICE & FIELD TRAINING

- Microsoft Excel Certification (with academic transcript)
- BNCC Camping Certificate
- BNCC Disaster Management & Fire Fighting Certificate
